Two are on the East Coast and another was reported missing by an English dealer last year. Our piece has been examined by the dealer in question and emphatically is not the one lost.*)

One was sold in 1978 by Peter Ireland (Format) Ltd. in England. Our specimen was compared to the above piece and is of the same die. This coin is from the Gaver Reference Collection and presumably was acquired in one of the bulk lots out of the Palace Sale in Cairo. It is a polished EF with rim bump and slight stains.

HOT AIR PAGE

We are pleased to conduct this sale in conjunction with the International Numismatic Society Convention in Washington, DC. Beginning with this sale and continuing for several sales, we will be auctioning the reference collection and retail stock of Collector's Research. Partly due to changes in Quebec business laws since this firm was last active, the remaining material has been consigned to us for auction. Some of this material will have to be auctioned as complete country listings or bulk lots. These lots will have dependable estimates but beginning with our November sale, there will be distinct advantages to a floor bidder being able to inspect lots. We are considering offering some of this material through bid or buy ads in World Coin News. In this current sale, we have barely scratched the surface of the Collector's Research consignment. Over 100 different consignors have material in this sale. A good number of these consignors are from overseas with at least 15 out of England.

In this catalog, we will have a Mail Bid Only section beginning with lot 1326. Coins in this section include outstanding items but typically hold comparatively little attraction at competitive prices to the usual audience of floor bidders. If offered on the floor, I would expect 90% or more still to go to the mail bidders. These lots will be available for inspection along with the other lots at the INS Convention.

An estimate sheet is provided with this catalog for those bidders who like to use one. The published estimates tend to be fairly accurate guides (and are not to be interpreted as minimum bids). We do not intentionally over or under estimate values.

You will notice on the back of your bid sheet, space to include the name and address of a collector or dealer friend whom you think might be interested in receiving a complimentary copy of our catalog. Our catalogs are only available to subscribers, consignors, and highly successful bidders.

Virtually all book titles and the Polaroid Copy Camera advertised in our Spring book list ad are still available. The book lists were sent only to our subscribers, so please request one at this time if you think it would be of interest.

Our next sale will be held in conjunction with the Michigan State Numismatic Society Annual Fall Convention held in late November in Dearborn, Michigan. The absolute final deadline for consignments to this sale is September 25th. Only top quality, scarce and rare items will be accepted this late. This sale will include the usual wide range of material typically found in our sales. We will also offer scarce paper money, U.S. and Canadian coins, ancients and medieval material, plus rare numismatic literature.

We have also scheduled the Suburban Washington, DC Convention auction in February plus several in Michigan this coming year. Potential consignors are invited to inquire about future auctions. Why be satisfied with wholesale prices and possible high commission rates? We have an established reputation with a goodly number of repeat consignors (any of whom formerly used other auction houses which are still using their private correspondence as published testimonials in ads. Without question, we have the best international clientele of any auction house in North America. Our commission rates are competitive and modest. Settlement is prompt and advances are available if desired.

The above estimates should be considered as an approximate basis for bids. They have been determined by auction records, catalog prices, price lists, and our estimates of fair value. Prices may go higher or lower according to the bids received. Bids are treated as your maximum limit. Your bids will be reduced where competition permits to within 5% to 10% of the second highest bidder.
